Fighting Fanconi Anemia...Enhancing The Lives Of Children

Special Needs Funded by KATA

- Two handicap equipped cabins at Camp Barnabas

- Scholarships for handicapped children to participate in sports programs through the Children's Hospital Handicapped Sports Program

- Funding of books for the Denver Champa House

- Scholarships for special needs high school students to attend Camp Barnabas

- Childcare provided so that young single mothers can attend job training and college classes

- Scholarships for handicapped children to participate in sports programs through the National Sports Center for the Disabled in Winter Park

- Scholarships to cover the costs for Fanconi anemia families to attend Camp Sunshine for education, networking and respite

- Scholarships for urban youth to attend Kids Across America summer camp

- Funding provided for a 14 passenger van to be used to transport the children who reside at the Ugandan orphanage operated by BOLAM

- Funding for scholarships for children and young adults with special needs to participate in a horseback riding therapy program through SaddleUp! To meet the needs of the participants, therapists in the SaddleUp! program use advanced techniques for physical, occupational and speech therapy.

- Funding provided for Campus Connections, a program of the Marion Downs Hearing Center, which is located on the campus of the University of Colorado Medical Center in Aurora, Colorado. The Campus Connections program provides deaf and hard of hearing college-bound students with the information and resources needed to increase their chances of successfully graduating from college.

- Funding for the Backyard Remodel Project at the Denver Champa House is a long-term transitional rehabilitation program for single mothers with children. The Backyard Remodel Project turned the existing unsafe, weedy yard at the Champa House into a new backyard that incorporates creativity, safety, rest and play. The new yard includes a sandbox, interactive play walls, garden beds for families to plant flowers or vegetables and a larger area to run and play.
